We provide a competitive compensation package, including benefits, along with the opportunity to work with clients from a variety of industries. Deluzio & Company team members are encouraged to pursue additional education and continue their professional growth. Our firm can offer a wonderful opportunity to the right candidate to learn, develop, and provide valuable services to their clients, fellow team members, and community.

Deluzio & Company has over 50 years of public service to our clients, we view every relationship like a partnership, and truly believe that our success is a result of our client's and team members' success. Our continual investment of time and resources in our team members, computer technology and extensive business relationships is indicative of our commitment to excellence. To ensure success, we provide on the job training, extensive continuing education opportunities and the ability for team members to not only be involved in all services we provide, but also specialize in practice areas that best fit team member goals. By having team members focus on key areas of interest, we can better serve our client base with professionals that best fit their needs. Our skilled professional, paraprofessional, and administrative team members are committed to providing close, personal attention to our clients. We take pride in providing assurance that the personal assistance our clients receive comes from years of advanced training, technical experience and financial acumen.

**Take a look at what our team has to say!**

“As an accounting student, I was fortunate enough to intern at Deluzio & Company all four summers of college. I graduated in 2013 with a Bachelor's and Master's in Accounting from Penn State. I always looked forward to my rewarding summer internships, especially since so many other class-mates had trouble finding relevant internship experiences. During my internships at Deluzio & Company, I spent most of my time in the audit department. I was surprised to find that I spent a lot of time actually assisting with audits and other accounting work. I assisted primarily with government, not-for-profit, and employee benefit plan audits. Although I didn't immediately return to Deluzio & Company after graduation, I am very grateful to be working here now as an accountant in the A&A department.”  
~ Cody Domasky, CPA – BS, MS Accounting, 2013, Penn State University ~

“During the spring and summer of 2014 I worked as a Tax Intern with Deluzio & Company, before joining the firm as a full-time tax accountant in January of 2015. Much of my work as an intern helped provide an invaluable insight and connection between my undergraduate studies and its actual application in the public accounting field. It was interesting to encounter things I was learning about in class as I prepared tax returns. During my internship I was able to prepare individual, partnership, and corporation tax returns, as well as get used to using tax accounting software, which I had not learned about in my college classes. An internship in public accounting is a great way to apply what you are learning in the classroom as well as gain knowledge and experience that the classroom simply cannot offer.”  
~ Michael Koontz - BS Accounting, 2014, Saint Vincent College ~

“I studied at Saint Vincent College and majored in accounting. Being an intern at Deluzio & Company gave me a great start and really reaffirmed to me that public accounting was what I wanted to do. I've been able to work on almost every part of the tax return process, and it's been really insightful. The opportunities never stopped as an intern. I've been exposed to so many different things, from bookkeeping to tax to even some audit work. Now, going in to full time work with the firm, I feel confident and prepared to handle any challenge that comes my way.” ~ Julie Shields - BS Accounting, 2016, Saint Vincent College ~
